

CITATIONS LISTED BY AWARD DATE

KEY: KFB - Karl Ferdinand Braun Prize; RJ - Jan Rajchman Prize; LBW - Lewis and Beatrice Winner Award;

JG - Johann Gutenberg Prize; OTTO - Otto Schade Prize; Slottow -Slottow-Owaki Prize;

SPREC - Special Recognition Award; Fellow - SID Fellow; FRD - Frances Rice Darne Memorial Award

FIRST NAME	LAST NAME	AWARD	YEAR	AWARD CITATION
Ruth	Davis	Fellow	1963	Fellow
James H.	Howard	Fellow	1963	Fellow
Anthony	Debons	Fellow	1964	Fellow
Rudolph L.	Kuehn	Fellow	1965	Fellow
Edith	Bardain	Fellow	1966	Fellow
William	Bethke	Fellow	1966	Fellow
Carlo	Crocetti	Fellow	1966	Fellow
Frances	Darne	Fellow	1966	Fellow
Harold	Luxenberg	Fellow	1966	Fellow
Petro	Vlahos	Fellow	1966	Fellow
William	Aiken	Fellow	1967	Fellow
Sid	Deutsch	Fellow	1967	Fellow
George	Dorion	Fellow	1967	Fellow
Solomon	Sherr	Fellow	1967	Fellow
Fordyce	Brown	Fellow	1968	Fellow
Robert	Carpenter	Fellow	1968	Fellow
Phillip	Damon	Fellow	1968	Fellow
Carl	Machover	Fellow	1969	Fellow
James	Redman	Fellow	1969	Fellow
Lou	Seeberger	Fellow	1969	Fellow
Leo	Beiser	Fellow	1970	Fellow
Nobuo John	Koda	Fellow	1970	Fellow
Bernard	Lechner	Fellow	1970	Fellow
Harry	Poole	Fellow	1970	Fellow
Bernard	Lechner	FRD	1971	Frances Rice Darne Memorial Award
Benjamin	Kazan	Fellow	1971	Fellow
Harold	Law	Fellow	1971	Fellow

Pierce	Siglin	Fellow	1972	Fellow
Malcolm	Ritchie	SPREC	1972	Special Recognition Award
Solomon	Sherr	SPREC	1972	Special Recognition Award
H. Gene	Slottow	FRD	1973	Frances Rice Darne Memorial Award
Irving	Reingold	Fellow	1973	Fellow
Norman	Lehrer	FRD	1974	Frances Rice Darne Memorial Award
Vernon	Fowler	Fellow	1974	Fellow
Charles	Halsted	Fellow	1974	Fellow
Edwin	Hiborn	Fellow	1974	Fellow
George	Holz	Fellow	1974	Fellow
Albert	Loshin	Fellow	1974	Fellow
William	Good	SPREC	1974	Special Recognition Award
Herbert	Hendrickson	SPREC	1974	Special Recognition Award
Kenichi	Owaki	SPREC	1974	Special Recognition Award
Ivan	Sutherland	SPREC	1974	Special Recognition Award
Andries	van Dam	SPREC	1974	Special Recognition Award
Harold	Law	FRD	1975	Frances Rice Darne Memorial Award
Lucien	Biberman	Fellow	1975	Fellow
William	Good	Fellow	1975	Fellow
H. Gene	Slottow	Fellow	1975	Fellow
Joseph	Bryden	SPREC	1975	Special Recognition Award
George	Heilmeier	SPREC	1975	Special Recognition Award
Otto	Schade	SPREC	1975	Special Recognition Award
Peter	Seats	SPREC	1975	Special Recognition Award
Donald	Shurtleff	SPREC	1975	Special Recognition Award
Cecil	Land	FRD	1976	Frances Rice Darne Memorial Award
Sanai	Mito	Fellow	1976	Fellow
Dalton	Pritchard	Fellow	1976	Fellow
Gerald	Slocum	Fellow	1976	Fellow
Peter	Brody	SPREC	1976	Special Recognition Award
Joseph	Markin	SPREC	1976	Special Recognition Award
Albert	Rose	SPREC	1976	Special Recognition Award
Aron	Vecht	SPREC	1976	Special Recognition Award
Vernon	Fowler	FRD	1977	For contributions in applying lasers and plasma technology to color television displays

Thomas	Maloney	Fellow	1977		For outstanding contributions to the advancement of plasma display technology
Koichi	Miyaji	Fellow	1977		For outstanding contributions to electroluminescent display and the management of display research
William	Ninke	Fellow	1977		For outstanding contributions to information processing and display systems
John	van Raalte	Fellow	1977		For outstanding contributions to light valve and matrix display technology
Gerald	Marie	SPREC	1977		For the development and application of electrooptic light valve color television
Solomon	Sherr	SPREC	1977		For his consistent contributions in advancing display technology, education and standards
Lewis	Winner	SPREC	1977		From their colleagues with heartfelt gratitude for their dedication and their creative contributions to the growth and excellence of the SID International Symposia
Beatrice	Winner	SPREC	1977		From their colleagues with heartfelt gratitude for their dedication and their creative contributions to the growth and excellence of the SID International Symposia
Irving	Reingold	FRD	1978		For outstanding technical leadership and significant contributions in the field of display devices and systems
Ifay	Chang	Fellow	1978		For fundamental and technological contributions to electroluminescent, electrochromic, and photochromic display materials, devices and systems
Gentaro	Miyazaki	Fellow	1978		For contribution to the design and development of color television receivers and for outstanding technical leadership in consumer electronics
Peter	Pleshko	Fellow	1978		For contributions to the analysis and design of matrix display devices, especially liquid crystal devices
Leo	Beiser	SPREC	1978		For outstanding contributions to laser scanning and recording systems applied to information display
Cornelius	Gerritsma	SPREC	1978		For contributions to the understanding of liquid crystal physical phenomena and developments in device technology
Benjamin	Kazan	SPREC	1978		For outstanding contributions to the literature on information display as editor of the SID Proceedings and as author and editor of numerous other publications
Sam	Kaplan	FRD	1979		For pioneering contributions to the development of shadow mask television tubes.
Aron	Vecht	Fellow	1979		For contributions to the field of dc electroluminescent displays
Donald	Bitzer	SPREC	1979		For pioneering contributions to computer graphic systems and ac plasma displays.
Tony	Criscimagna	SPREC	1979		For contributions to ac plasma circuit technology
Tadashi	Nakamura	SPREC	1979		For innovative contributions to vacuum fluorescent displays

Peter James	Ngo Greeson	SPREC FRD	1979 1980	For innovations in the interactive control of ac plasma displays For his contributions to the development and manufacturing of ac plasma display technology
Cecil	Land	Fellow	1980	For his outstanding contribution to the development of ferroelectric ceramic electrooptic storage and display devices
Masanobu	Wada	Fellow	1980	For his contributions to the development of liquid crystal display devices, and for outstanding leadership in developing liquid crystal technology in Japan
Paul	Alt	SPREC	1980	For important contributions to the application of liquid crystals in multiplexed displays
Philip	Heyman	SPREC	1980	For significant contributions to video storage and display systems
Jan	Rajchman	FRD	1981	For pioneering and continued contributions to information displays and especially flat panel displays
Frederic	Kahn	Fellow	1981	For his contribution to the technology of liquid crystal displays
Elliott	Schlam	Fellow	1981	For his contribution to the development of flat panel displays
Alan	Sobel	Fellow	1981	For his contributions to the theory of matrix addressing displays
William	Pennebaker	SPREC	1981	For outstanding contribution to aerosol printing and gas discharge displays
Jay	Brandinger	Fellow	1982	For his contributions and technical leadership in the development of consumer information display devices, particularly color television systems and VideoDisc system.
John	Constantine	Fellow	1982	For his contribution to the development of high-resolution cathode-ray tubes through pioneering improvements in deflection yokes, focus coil, associated electronic circuitry, and precision measuring equipment
Peter	Ngo	Fellow	1982	For his continuing contributions to the advancement of plasma display technology
Larry	Weber	SPREC	1982	For his contributions to the optical addressing of the plasma display
Bernard	Lechner	LBW	1983	For long and outstanding service to the Society of Information Display
Yoshifumi	Amano	Fellow	1983	For outstanding contributions in the development of high resolution dc plasma displays using advanced thick-film technology
Peter	Brody	Fellow	1983	For his pioneering leadership in the development of large scale display integration utilizing thin-film transistor array technology
Webster	Howard	Fellow	1983	For his significant technical contributions in electroluminescence, plasma displays and silicon device physics, and his demonstrated leadership in managing display research
Lawrence	Tannas	Fellow	1983	For technical and tutorial contributions to flat panel display technology and for his professional leadership in the display community

Toshio	Inoguchi	SPREC	1983	For contributions to the development of technology for ac electroluminescent display panels and for the discovery of optical and memory effects in these panels
Henry	Marcy	SPREC	1983	For his outstanding contributions to the technology of electron beam deflection and focus in cathode ray tubes, and for his effective communication of his knowledge to the display community
Omesh	Sahni	SPREC	1983	For important contribution to the physical understanding of gas discharge displays
Chuji	Suzuki	SPREC	1983	For important contributions to ac electroluminescent display systems including multifunction display terminals.
George	Holz	FRD	1984	For distinguished invention and development of self-scan plasma displays
James	Ogle	FRD	1984	For distinguished invention and development of self-scan plasma displays
Lewis	Winner	LBW	1984	For long and outstanding service to the Society for Information Display
Thomas	Credelle	Fellow	1984	For significant contributions and innovative leadership in the design and development of guided-beam large screen flat-panel displays and for demonstrating feasibility of this technique for color flat-panel TV
Werner	Haas	Fellow	1984	For outstanding research on the electro-optical properties of liquid crystals and for the development of a variety of LCDs and light valves
P. Andrew	Penz	Fellow	1984	For experimental, theoretical and tutorial contributions to LCD technology
Koichiro	Kurahashi	SPREC	1984	For the development of a high-brightness large-screen color video display system using an array of newly developed flood-beam CRTs
Peter	Pleshko	FRD	1985	For technical and leadership contributions in the development and manufacturing of high-information-content ac plasma displays
Solomon	Sherr	LBW	1985	For long and outstanding service to the Society for Information Display
Cornelius	Gerritsma	Fellow	1985	For contributions and leadership in flat-panel display research
Allan	Kmetz	Fellow	1985	For contributions to the understanding and application of liquid-crystal displays
James	Ferguson	FRD	1986	For his pioneering and continuing contributions to liquid-crystal display technology
Paul	Alt	Fellow	1986	For pioneering studies on the addressing of liquid-crystal and electroluminescent displays
Roger	Johnson	Fellow	1986	For contribution to the theory and application of ac gas discharge display technology
Tomio	Wada	Fellow	1986	For leadership in the commercialization of liquid-crystal displays
Masakazu	Fukushima	SPREC	1986	For contribution to high-definition television technology
Eiichi	Yamazaki	SPREC	1986	For contributions to the development of high-resolution color picture tubes

Peter	Brody	KFB	1987	For his pioneering achievement in the development of thin-film transistor active-matrix displays
Gary	Starkweather	JG	1987	For his outstanding contributions to the development of laser xerography
Harold	Luxenberg	LBW	1987	For outstanding contribution to the Society in its early formative years
Shunsuke	Kobayashi	Fellow	1987	For his pioneering and continuing contribution to LCDs with high legibility and for his leadership in the display community
Andras	Lakatos	Fellow	1987	For his many contributions to the development of electro-optic devices
Omesh	Sahni	Fellow	1987	For his significant contributions in gas-discharge displays, EL devices, and gaseous electronics
Dwight	Berreman	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information content LCDs
Eiji	Kaneko	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information content LCDs
Juergen	Nehring	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information-content LCDs
Peter	Raynes	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information content LCDs
Martin	Schadt	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information content LCDs
Terry	Scheffer	SPREC	1987	For significant and continuing contributions to the theory and the reduction to practice of high-information content LCDs
Toshio	Inoguchi	KFB	1988	For his pioneering work on stable high-brightness thin-film electroluminescent displays
C. Hellmuth	Hertz	JG	1988	For his fundamental contributions to the ink-jet printing technology, especially for graphic image printing
Irving	Reingold	LBW	1988	For outstanding contributions to the Society for Information Display
Dwight	Berreman	Fellow	1988	For his important contributions to liquid-crystal optics and his pioneering work on highly twisted LCD cells
Akio	Sasaki	Fellow	1988	For his important contributions to thermotropic LCDs and for his broad activity and leadership in display technology
Heiju	Uchiike	Fellow	1988	For his important contributions to the technology of plasma displays, and for his leadership in the display community
Shinji	Morozumi	SPREC	1988	For his leadership in the development of the first commercial active-matrix liquid crystal television display

Tatsuo	Uchida	SPREC	1988	For his important contributions to LCD technology, especially his development of techniques for full-color displays
Norm F.	Fyler	KFB	1989	For the conceptual design and development of the shadow-mask color CRT, which led to a major display industry
Harold	Law	KFB	1989	For the conceptual design and development of the shadow-mask color CRT, which led to a major display industry
Edward	Ramberg	KFB	1989	For the conceptual design and development of the shadow-mask color CRT, which led to a major display industry
Alfred	Schroeder	KFB	1989	For the conceptual design and development of the shadow-mask color CRT, which led to a major display industry
Shigehisa	Nakaya	JG	1989	For his pioneering achievement and outstanding contribution in the development of thermographic printing and its application to facsimile systems
Ifay	Chang	LBW	1989	For his outstanding service to the Society for Information Display
Takehiro	Kojima	Fellow	1989	For his many contributions to the development of full-color plasma displays
Larry	Weber	Fellow	1989	For sustained contributions to the advancement of ac plasma display technology
Zvi	Yaniv	Fellow	1989	For his innovation and leadership in the development of large-area high-performance active-matrix LCDs and scanners
Noel	Clark	SPREC	1989	For his outstanding technical contributions to ferroelectric liquid crystal materials and displays
Sven	Lagerwall	SPREC	1989	For his outstanding technical contributions to ferroelectric liquid crystal materials and displays
Robert	Meyer	SPREC	1989	For his outstanding technical contributions to ferroelectric liquid crystal materials and displays
Akio	Ohkoshi	KFB	1990	For his outstanding contributions to color CRT development, including the Trinitron and the Jumbotron
Albert	Chow	JG	1990	For his pioneering contributions to serial wire matrix printer technology
Richard H.	Darling	JG	1990	For his pioneering contributions to serial wire matrix printer technology
Koichi	Miyaji	LBW	1990	For outstanding service to the Society for Information Display
Eiji	Kaneko	Fellow	1990	For his important contributions to LCD device development and for his contribution to display education through his textbooks
Christopher	King	Fellow	1990	For technical contributions in thin-film ac electroluminescence and for technical leadership in developing this technology into commercial display products
Harry	Snyder	Fellow	1990	For his many important contributions to display human factors and his leadership in the human factors and standards communities

Robert	Durbeck	SPREC	1990	For his outstanding contributions to SID in establishing the hardcopy activities and as chairman of the IDRC committee
Fang-Chen	Luo	SPREC	1990	For his pioneering and sustained contributions to the fabrication of TFT-LCDs
Kentaro	Kiyozumi	KFB	1991	For the invention of the vacuum fluorescent display
Tadashi	Nakamura	KFB	1991	For the invention of the vacuum fluorescent display
Ichiro	Endo	JG	1991	For his independent invention of thermal ink-jet printing technology
John	Vaught	JG	1991	For his independent invention of thermal ink-jet printing technology
John	van Raalte	LBW	1991	For outstanding service to the Society for Information Display
Masami	Yoshiyama	Fellow	1991	For his significant contributions to the development of flat-panel displays, especially the first commercial full-color liquid-crystal television receiver using amorphous-silicon thin-film transistors
Hiroo	Hori	SPREC	1991	For his many important contributions to the development of matrix-addressed LCDs
Shigeo	Mikoshiha	SPREC	1991	For his outstanding contributions to the advancement of plasma display technology
Martin	Schadt	KFB	1992	For outstanding and sustained scientific and technical contributions to the development of twisted-nematic and other LCD technologies
Richard	Fotland	JG	1992	For the invention and development of ion printing technology
Masakazu	Fukushima	LBW	1992	For outstanding service to the Society of Information Display
Walter	Goede	Fellow	1992	For his pioneering work in the research and development of flat-panel display devices, and for his leadership in the display community
Fang-Chen	Luo	Fellow	1992	For his innovative and technical leadership in the development of TFT technology for display applications
Iwao	Ohishi	Fellow	1992	For his sustained contributions to the development of image display devices, and for his distinguished leadership in the display device research and development community in Japan
Martin	Schadt	Fellow	1992	For his pioneering contributions to research and development of twisted-nematic and other liquid crystal devices and materials
Harold	Ketchum	SPREC	1992	For his sustained contributions to the growth and stability of the electronic display community through the practice of sound business principles and support to entrepreneurial organizations
Karel	Kuijk	SPREC	1992	For his invention of new addressing techniques that reduce the number of required connections and simplify the manufacture of active matrix LCDs utilizing two-terminal nonlinear elements
Kinzo	Nonomura	SPREC	1992	For his outstanding innovative contributions to the development of a flat color CRT

Masanori	Watanabe	SPREC	1992		For his outstanding innovative contributions to the development of a flat color CRT
William	Glenn	KFB	1993		For conception and development of the Talaria light-valve video projector
William	Good	KFB	1993		For conception and development of the Talaria light-valve video projector
Thomas	True	KFB	1993		For conception and development of the Talaria light-valve video projector
Terry	Scheffer	JR	1993		For outstanding and sustained research contributions leading to the development of supertwisted-nematic liquid-crystal flat-panel displays and to novel addressing techniques
Bob	Gundlach	JG	1993		For outstanding and sustained contributions to printer technologies, particularly to the field of electrophotography
Lawrence	Tannas	LBW	1993		For outstanding service to the Society
Peter	Barten	Fellow	1993		For a lifetime of contributions to color CRT technology, especially for improving resolution and picture quality
Makoto	Ikegaki	Fellow	1993		For significant contributions to the development and commercialization of high-performance CRTs, especially for computer terminal and aircraft cockpit displays
Chuji	Suzuki	Fellow	1993		For his pioneering and important contributions to ac thin-film electroluminescent display systems, including multi-function display terminals, and for his leadership in the display community
Birendra	Bahadur	SPREC	1993		For his outstanding contribution to the body of literature relating to liquid-crystal displays and for his contributions to liquid-crystal display technology
Jacques	Deschamps	SPREC	1993		For his outstanding innovative contributions to ac plasma technology for monochrome and color displays
Takashi	Inukai	SPREC	1993		For his pioneering contributions to liquid-crystal material development and his leadership in the growth of the industry
Hideomi	Ohnishi	SPREC	1993		For his many contributions to thin-film electroluminescent display technology, especially for improved color electroluminescent phosphors
Tsutae	Shinoda	SPREC	1993		For his outstanding innovative contributions to the development of color ac plasma display
Shosaku	Tanaka	SPREC	1993		For his many contributions to thin-film electroluminescent display technology, especially for improved color electroluminescent phosphors
Peter	LeComber	JR	1994		For outstanding scientific work in solid-state physics, especially on amorphous silicon, and for being the first to suggest the use of amorphous silicon as a practical means to produce an AMLCD panel
Akito	Iwamoto	JG	1994		For his pioneering contributions to thermal-transfer printing technology
Howard	Funk	LBW	1994		For outstanding service to the Society

Masakazu	Fukushima	Fellow	1994	For his pioneering research on flat-panel matrix displays, his development of very-high-resolution color CRT displays, and his outstanding leadership in the display field
Peter	Raynes	Fellow	1994	For outstanding and sustained contributions to the physics of liquid crystals and the technology of liquid crystal devices
Tatsuo	Uchida	Fellow	1994	For his important contributions to the theory and technology of liquid-crystal displays, and for his leadership in the display community
Shigeo	Aoki	SPREC	1994	For his important contributions in establishing manufacturable AMLCDs with a unique a-Si TFT structure and process, and implementing the related production techniques
Guy	Hill	SPREC	1994	For significant life-long contributions to the development of phosphor-manufacturing processes and to the creation of new phosphor materials
Rikusei	Kohara	SPREC	1994	For their (with B. Uchida) outstanding contributions to the development and commercial mass production of high-resolution plasma display panels for portable personal computers
Hiroshi	Murakami	SPREC	1994	For his outstanding contributions to the development of high-quality color plasma image displays using pulse-memory technology
Hiroshi	Suzuki	SPREC	1994	For a number of important innovations to the design of high-resolution electron guns for color CRTs
Bunji	Uchida	SPREC	1994	For their (with R. Kohara) outstanding contributions to the development and commercial mass production of high-resolution plasma display panels for portable personal computers
Eiichi	Yamazaki	KFB	1995	For his outstanding contributions to the development of color CRTs and especially to the performance of CRT projection display systems
Shunsuke	Kobayashi	JR	1995	For his outstanding and sustained research contribution to the development of liquid-crystal flat-panel displays, especially defect-free panels featuring high legibility
Hiroaki	Kotera	JG	1995	For his important contributions to digital color image-processing technologies for non-impact color printing, including the development of a single-chip color processor
Walter	Goede	LBW	1995	For outstanding service to the Society
Hsing-Yao	Chen	Fellow	1995	For his important and sustained contributions to color-CRT electron-gun design
Hiroo	Hori	Fellow	1995	For his many contributions to active-matrix LCD technology and for his leadership in the flat-panel community in Japan
Shigeo	Mikoshiba	Fellow	1995	For his outstanding contributions to research on plasma displays and for his many years of leadership in the display community

Masaya	Hijikigawa	SPREC	1995	For his important contributions to the development of TFT color LCDs for notebook computers and for leadership in establishing the technology for their mass production
Tsunekiyo	Iwakawa	SPREC	1995	For his important contributions to the development of TFT color LCDs for notebook computers and for leadership in establishing the technology for their mass production
Yasuhisa	Oana	SPREC	1995	For his important contributions to the development of TFT color LCDs for notebook computers and for leadership in establishing the technology for their mass production
Hiroyuki	Ohshima	SPREC	1995	For his important and creative contributions to the research, development and commercialization of active-matrix LCDs employing poly-Si TFTs
Satoshi	Okazaki	SPREC	1995	For his contributions to research and development leading to mass production of color filters for LCDs
Takeo	Sugiura	SPREC	1995	For his contributions to research and development leading to mass production of color filters for LCDs
Larry	Weber	SPREC	1995	For his unique entrepreneurship in founding a company to manufacture ac plasma displays exploiting his own research results
Zu-Kai	Wu	SPREC	1995	For his outstanding technical and entrepreneurial accomplishments in directing the development of black-and-white and color CRTs in the People's Republic of China
George	Gray	KFB	1996	For contributions to the understanding of liquid-crystal materials and the creation of stable compounds for use in LCD's
Robert	Meyer	JR	1996	For the invention and development of field-emission flat-panel displays using micro-tip structures
Capp	Spindt	JR	1996	For the invention and development of field-emission flat-panel displays using micro-tip structures
Takehiro	Kojima	LBW	1996	For outstanding service to the Society for Information Display
Carlo	Infante	Fellow	1996	In recognition of sustained contributions to the understanding and application of display technology, and as a mentor to many
Hideaki	Kawakami	Fellow	1996	For pioneering contributions to the research and development of matrix-addressing technologies for LCDs and other liquid-crystal display devices
Alan	Knapp	Fellow	1996	For his wide-ranging contributions to the development of a flat CRT and the development active-matrix LCDs
Chizuka	Tani	Fellow	1996	For his contribution to the advancement of liquid-crystal and other displays since early stages, and to the development of 10-in.-class TFT-LCDs for the first commercial color notebook-type personal computers

Thomas	Buzak	SPREC	1996	For original and important contributions to plasma-addressed matrix LCDs
Michel	Le Contellec	SPREC	1996	For the invention of a new thin-film transistor structure involving fewer lithographic steps.
Makoto	Maeda	SPREC	1996	For his contributions to the development and industrialization of the Trinitron as well as flat monochrome CRTs
Francois	Morin	SPREC	1996	For the invention of a new thin-film transistor structure involving fewer lithographic steps
Shuji	Nakamura	SPREC	1996	For contributions to the development of high-brightness blue LEDs for full-color LED Displays
Richard E.	Thoman	SPREC	1996	For exceptional service to SID as a Charter Member, and for long-term support of the San Diego Chapter in particular
Isamu	Washizuka	KFB	1997	For outstanding contributions to the development of LCDs, in particular to the field of large-area LCDs
Gunter	Baur	Fellow	1997	For pioneering contributions to the understanding and development of LCDs, including the invention of the in-plane-switching effect
James	Ferguson	Fellow	1997	For pioneering contributions to the field of liquid crystals and inventive applications to displays
Louis	Silverstein	Fellow	1997	For scientific contributions to the the design and evaluation of LCDs, including novel methods for display modeling and simulation
Eiichi	Yamazaki	Fellow	1997	For outstanding contributions to the CRT industry, including the development of segmented lens exposure systems, high-resolution data display tubes, and CRT projectors
Atsuo	Fukuda	SPREC	1997	For the discovery of anti-ferroelectric liquid crystals and contributions to the understanding of liquid crystal structures and properties
Richard	Holmes	SPREC	1997	For entrepreneurship and vision in creating an important market for high-performance projection displays
Shuji	Iwata	SPREC	1997	For important contributions to the development of a large-screen color flat-matrix CRT
Hisao	Nakanishi	SPREC	1997	For the development of improved oxide-cathodes, innovative CRT technologies, and advances in CRT reliability
Bernhard	Scheuble	SPREC	1997	For pioneering contributions to the development of liquid-crystal materials for LCD applications, and for vision and leadership in the growth of this industry
Shoji	Shirai	SPREC	1997	For contributions to the development of low-aberration electron guns and electron-beam simulation techniques

Georg	Weber	SPREC	1997		For pioneering contributions to the development of liquid-crystal materials for LCD applications, and for vision and leadership in the growth of this industry
Cyril	Hilsum	KFB	1998		For outstanding contributions to display technologies and for his vision and promotion of practical flat-panel displays
William	Doane	JR	1998		For contributions to research in polymer-dispersed, polymer-stabilized, and bistable cholesteric reflective liquid-crystal devices and for leadership in liquid-crystal research
C Wayne	Jaeger	JG	1998		For creation and commercialization of phase-change inks and significant contributions to printing technology
Donald	Titterington	JG	1998		For creation and commercialization of phase-change inks and significant contributions to printing technology
Chuji	Suzuki	LBW	1998		For outstanding service to SID and for his service to the display community at large
Fumiaki	Funada	Fellow	1998		For important contributions to LCD technologies, especially for TFT-LCDs and high-brightness LC projection displays using microlens optics.
William	Glenn	Fellow	1998		For exceptional creativity and important contributions to the development of light modulators and projection displays
Ernst	Lueder	Fellow	1998		For contributions to research and development of LCDs and for leadership in the development of flat-panel displays
Shinji	Morozumi	Fellow	1998		For pioneering efforts and leadership in the active-matrix LCD industry
P. Niel	Yocom	Fellow	1998		For leadership and pioneering contributions in phosphor technology and its application to CRT, EL, and field-emission displays
Rudolf	Kiefer	SPREC	1998		For the pioneering contributions to the research and development of in-plane switching for wide viewing angle LCDs
Katsumi	Kondo	SPREC	1998		For the pioneering contributions to the research and development of in-plane switching for wide viewing angle LCDs
Keiji	Nunomura	SPREC	1998		For sustained contributions to performance of full-color large-area AC PDPs, and to PDP mass-production technologies
Tokuhide	Shimojo	SPREC	1998		For contributions to the development of single- and multi-pixel lighting elements for large-screen color video displays
Hiroshi	Wada	SPREC	1998		For creative contributions to the development and commercialization of black and white STN-LCDs
Larry	Hornbeck	KFB	1999		For the invention and development of the Digital Micromirror Device projection-display technology

Dan	Hays	JG	1999	In recognition of three decades of scientific discovery and invention in the electrophotographic process that enabled outstanding hardcopy quality in three generations of copier and printer products
Philip	Heyman	LBW	1999	For outstanding service to the Society for Information Display, spanning more than two decades
Makoto	Maeda	Fellow	1999	For contributions to performance of the Trinitron as well as monochrome flat CRTs
Shoichi	Matsumoto	Fellow	1999	For his contributions to the research and development of both passive and active LCDs, and for his leadership in the LCD community
Terry	Scheffer	Fellow	1999	For his invention of several seminal display technologies, including STN and active-addressed LCDs
Tsutae	Shinoda	Fellow	1999	For the development and commercialization of color plasma display technologies
John	Fan	SPREC	1999	For the development and commercialization of the wafer transfer-type single-crystal TFT-LCD technology
Yasuyuki	Gotoh	SPREC	1999	For the development of a series of fluorinated liquid-crystal compounds suitable for TFT-LCDs.
Kenji	Okamoto	SPREC	1999	For the development of multi-domain vertical alignment by a novel and innovative rubbingless process for large-screen fast LCDs
Kouji	Suzuki	SPREC	1999	For contributions to the development of large-area active-matrix LCD structures and processes using amorphous- and poly-crystalline silicon TFT's
Yasumasa	Takeuchi	SPREC	1999	For the development of low-temperature-processing LC alignment materials for TFT-LCDs.
Malcolm	Thompson	SPREC	1999	For his contributions to the development high-resolution display and sensor products as an entrepreneur
Larry	Weber	KFB	2000	For pioneering contributions to plasma-display-panel technology and its commercialization
Seung Ho	Baek	JG	2000	For the conception, design, and development of laser thermal dye transfer color-imaging systems
Charles	DeBoer	JG	2000	For the conception, design, and development of laser thermal dye transfer color-imaging systems
William	Doane	Fellow	2000	For research and development of dispersed polymer and bistable cholesteric texture displays.
Setsuo	Kaneko	Fellow	2000	For contributions to the research and development of amorphous- and polycrystalline-Si TFT technologies and TFT-LCD monitors
Hiroyuki	Ohshima	Fellow	2000	For contributions to development of polycrystalline-Si TFT-LCD's

Seyno	Sluyterman	Fellow	2000	For innovative contributions to CRT technology, deflection systems, and novel CRT systems
Joseph	Castellano	SPREC	2000	For leadership in assessment and forecasting of display technology and worldwide markets.
Nobuki	Ibaraki	SPREC	2000	For development of amorphous- and polycrystalline-Si TFT materials, device processing, array structures, and TFT-LCDs
Shohei	Naemura	SPREC	2000	For research and development of liquid-crystal materials applications in a wide variety of LCD structures
Tsunehiko	Sugawara	SPREC	2000	For innovative contributions to the development of flat and lighter weight glass bulbs for CRTs
Teruo	Tohma	SPREC	2000	For development and commercialization of multi-color electroluminescent devices
Shin Tson	Wu	SPREC	2000	For the invention and commercialization of mixed-mode TN-structure reflective LCDs
Ching	Tang	JR	2001	For pioneering contributions to the underlying science and technology of organic light-emitting diodes that lead to the commercialization of flat-panel OLED displays
Steven	Van Slyke	JR	2001	For pioneering contributions to the underlying science and technology of organic light-emitting diodes that lead to the commercialization of flat-panel OLED displays
Minoru	Usui	JG	2001	For his outstanding contribution to high-image-quality ink-jet printing technology development and commercialization using the micro-piezoelectric print-head system
Shoji	Shirai	Fellow	2001	For his outstanding contributions to the design of electron guns for color CRTs and the development of larger screen size and improved narrow-neck CRTs
Takeo	Sugiura	Fellow	2001	For his basic research on photosensitive compositions leading to the development and commercialization of color filters for full-color LCD's used in both personal computer and in television systems
Shosaku	Tanaka	Fellow	2001	For research and development on thin-film color EL displays that employ broadband EL phosphors and color filters, and for leadership in the display community
Shin Tson	Wu	Fellow	2001	For his contributions to advancements in reflective liquid-crystal display technology, materials-modeling and development
Kei-Hsiung	Yang	Fellow	2001	For his important and sustained contributions to liquid-crystal display technology
Hiroyoshi	Fukuro	SPREC	2001	For research on and development of alignment materials for liquid crystals and for their application in a variety of mass-produced liquid-crystal displays

Tadatsugu	Hirose	SPREC	2001	For his invention and application of an addressing method that enabled development of large-area high-resolution color plasma displays
Yukinobu	Iguchi	SPREC	2001	For his technical contributions and leadership in the development and commercialization of large-size flat-faceplate CRT's
Daphne	Lamport	SPREC	2001	For exceptional and sustained service to the SID UK-Ireland Chapter, including being the long-time editor of the outstanding SID UK-Ireland Newsletter
Cheng Yuan	Lin	SPREC	2001	For his entrepreneurial accomplishments rooted in enhanced research and development that transformed his company into a worldwide leader in high-volume display manufacturing
Susumu	Sakamoto	SPREC	2001	For his contributions to the cost-effective manufacturing of large plasma-display panels, including advances in thick-film technology and in manufacturing processes and equipment
Robert	Hunt	JG	2002	For his outstanding contributions to color imaging science and color image reproduction techniques and their application to photography and printing
Alan	Sobel	LBW	2002	For long and meritorious service to SID in a variety of positions, including Editor of the Journal of the SID
Philip	Bos	Fellow	2002	For his contributions to the science and technology of LCDs, especially high-speed, bi-stable, diffractive, and self-compensating devices
Daniel	den Engelsen	Fellow	2002	For outstanding contributions to CRT technology, especially the development of improved cathodes
Nobuki	Ibaraki	Fellow	2002	For his contributions to the research and development of amorphous- and polycrystalline-Si TFT-LCDs
Shohei	Naemura	Fellow	2002	For his contributions to the development of liquid crystal materials for a great variety of display uses
Ching	Tang	Fellow	2002	For pioneering and sustained contributions to organic light-emitting display technology
Tei	Iki	SPREC	2002	For his leading contributions to the evolution of the SID into a worldwide international professional organization
Junji	Kido	SPREC	2002	For outstanding contributions to the development of organic electroluminescent materials and devices for displays
Taiichiro	Kurita	SPREC	2002	For understanding image-degradation mechanisms in AMLCDs and proposing methods to reduce these problems
Soichiro	Okuda	SPREC	2002	For his contribution to the development of computer simulation of CRT components, and the Diamondtron CRT

Yoichi	Sato	SPREC	2002		For his technical leadership in the development and mass production of high-definition PDP-TVs
Yoshifumi	Shimodaira	SPREC	2002		For pioneering contributions to the research and development of video-image-quality improvement of AMLCDs
Sashiro	Uemura	SPREC	2002		For pioneering contributions to the development of carbon-nanotube field-emission displays
Tsutae	Shinoda	KFB	2003		For his pioneering inventions and outstanding contributions to commercializing color plasma displays
Webster	Howard	JR	2003		For his outstanding contributions to the research and development of many flat-panel-display types
Shunsuke	Kobayashi	LBW	2003		For outstanding service and contribution to SID, especially his efforts to make SID truly international
William	Bleha	Fellow	2003		For the invention, nurture, and implementation of large-screen projection-display technology based on reflective liquid-crystal devices
Shui-Chih	Lien	Fellow	2003		For his many contributions to the science and technology of liquid-crystal displays
Eli	Peli	Fellow	2003		For outstanding contributions in the application of vision science to information-display technology
Gary	Starkweather	Fellow	2003		For invention of the laser printer
Edward	Stupp	Fellow	2003		For outstanding technical leadership and contribution to liquid-crystal projection displays
I-Wei	Wu	Fellow	2003		For outstanding technical contributions and leadership in the development of low-temperature poly-silicon displays
Amal	Ghosh	SPREC	2003		For development of novel production-worthy processes for OLED displays and FED displays
Paul	Gulick	SPREC	2003		For outstanding entrepreneurial accomplishment founding several successful projection display businesses
Jin	Jang	SPREC	2003		For outstanding contributions to novel thin-film-transistor technology for LCDs
Noboru	Miura	SPREC	2003		For his leading research and development of phosphors for full-color inorganic electroluminescent displays
Terence	Nelson	SPREC	2003		For sustained and dedicated service to SID both at the chapter level and the international level
Michael	Wand	SPREC	2003		For pioneering work on the formulation and synthesis of wide-temperature-range ferroelectric liquid-crystal materials

Shuji	Nakamura	KFB	2004	For his pioneering inventions of high-efficiency blue, green, and white gallium nitride light-emitting diodes for full-color large-area outdoor displays and LCD backlighting
Tatsuo	Uchida	JR	2004	For his outstanding contributions to the science of liquid-crystal molecular alignment and the technology of high-performance LCDs
Masaki	Kutsukake	JG	2004	For his development of high-quality sublimation transfer imaging media and their commercialization
Jay	Morreale	LBW	2004	For his outstanding service to the publications and conferences of SID
Jean-Pierre	Boeuf	Fellow	2004	For his outstanding contributions to the research and development of plasma displays, especially by computer simulation of the gas discharge
Arlie	Conner	Fellow	2004	For his inventive contributions in the field of liquid-crystal displays and for the development of low-cost light-weight liquid-crystal projectors
Katsumi	Kondo	Fellow	2004	For his pioneering contributions to in-plane switching TFT-LCD technology, leading to the first commercialization of LCDs with intrinsically wide viewing angles
Anthony	Lowe	Fellow	2004	For his outstanding contributions to the science and technology of many display phenomena
Masataka	Matsuura	Fellow	2004	For his outstanding contribution to the research and development of active and passive-matrix color liquid-crystal displays, and for his leadership in the display community
Kouji	Suzuki	Fellow	2004	For his outstanding contributions to the research and development of thin-film-transistor liquid-crystal displays
Hsuan-Bin	Chen	SPREC	2004	For his outstanding entrepreneurial accomplishment in management of a major TFT-LCD manufacturer
George	Dick	SPREC	2004	For his pioneering invention of the three-electrode plasma display which enabled commercial color plasma displays
Toshihiro	Komaki	SPREC	2004	For his outstanding contribution to the improvement of color plasma display performance by invention of the waffle rib structure
Robin	Merrifield	SPREC	2004	Shared with Louis D. Silverstein: For their outstanding efforts in the conversion of commercial airplane flight decks from mechanical instruments to color CRT displays, while maintaining safety of flight under all lighting conditions
Louis	Silverstein	SPREC	2004	Shared with Robin Merrifield: For their outstanding efforts in the conversion of commercial airplane flight decks from mechanical instruments to color CRT displays, while maintaining safety of flight under all lighting conditions

Haruhiko	Okumura	SPREC	2004	For his pioneering research and development of driving technology for liquid-crystal displays, especially the overdrive technique to reduce motion artifacts
Dan	Schott	SPREC	2004	For his sustained technical contributions to the development, design, and manufacture of liquid-crystal displays
William	Bleha	KFB	2005	For his invention of the liquid crystal light valve, for fostering its refinement, and for leadership in its application to large screen projection displays
Donal	Bradley	JR	2005	For their discovery and contributions to the understanding and development of light emitting polymers for display applications.
Jeremy	Burroughes	JR	2005	For their discovery and contributions to the understanding and development of light emitting polymers for display applications
Richard	Friend	JR	2005	For their discovery and contributions to the understanding and development of light emitting polymers for display applications
Josef	Schneider	JG	2005	For his numerous innovative contributions to concept development and fundamental inventions critical to the realization of computer-to-press systems for conventional and electronic printing processes
Adi	Abileah	Fellow	2005	For his significant contributions to optical enhancements for LCDs including wide-viewing-angle compensation films and brightness enhancement films for back lights
Gregory	Crawford	Fellow	2005	For his many contributions to the science and technology of liquid crystal displays including reflective displays, polymer stabilized liquid crystal displays and light modulating films
Paul	Drzaic	Fellow	2005	For fundamental scientific work in the development of polymer dispersed liquid crystals, and technical contributions and leadership in the development of electronic paper technologies
Hoi-Sing	Kwok	Fellow	2005	For contributions to the development of liquid crystal on silicon microdisplays and related optical systems, and for the development of bistable twisted nematic liquid crystal displays
Hiroshi	Murakami	Fellow	2005	For his many contributions to the development of HDTV PDPs including the pulse memory drive scheme, large panel fabrication technologies, and the demonstration of high-performance displays
Han-Ping	Shieh	Fellow	2005	For his many novel applications of optics and micro-optics for projection and liquid crystal displays and for his contributions to display education
Keiichi	Betsui	SPREC	2005	For his outstanding contribution to development of high-luminance and high-resolution plasma displays having the delta cell arrangement
Satish Kumar	Kaura	SPREC	2005	For outstanding entrepreneurial leadership in the display industry in India

Thierry	Leroux	SPREC	2005		For outstanding entrepreneurial and technical achievement by founding and leading a company that manufactures innovative measurement instruments for the display industry
Hiap	Ong	SPREC	2005		For his many contributions to the science and technology of LCDs, especially optical modeling and characterization
Gerrit	Oversluizen	SPREC	2005		For developing a plasma display with simultaneous high luminous efficiency and high luminance
Tomokazu	Shiga	SPREC	2005		For ingenious applications of gas discharges to LCD backlights and plasma displays
Deng-Ke	Yang	SPREC	2005		For his pioneering work on polymer stabilized cholesteric devices and reflective displays
Christopher	King	KFB	2006		For his many contributions to the development of electroluminescent display technology and for his business and technical leadership of the major electroluminescent display manufacturer
Stephen	Forrest	JR	2006		For their insight into the process of exciton generation and diffusion in organic light emitting diodes that led to the discovery of phosphorescent OLEDs, which quadrupled OLED efficiency
Mark	Thompson	JR	2006		For their insight into the process of exciton generation and diffusion in organic light emitting diodes that led to the discovery of phosphorescent OLEDs, which quadrupled OLED efficiency
Michio	Shinozaki	JG	2006		For his outstanding contribution to the development of pigment type full color printing technology for high security media
Curtis	Carlson	OTTO	2006		For their many contributions to the objective assessment and prediction of display image quality including the development of the first display quality metric quantified in perceptual units of just noticeable differences (JNDs)
Roger	Cohen	OTTO	2006		For their many contributions to the objective assessment and prediction of display image quality including the development of the first display quality metric quantified in perceptual units of just noticeable differences (JNDs).
Aris	Silzars	LBW	2006		For exceptional and sustained service to the Society
Chin-Hsin (Fred)	Chen	Fellow	2006		For his contributions to the development of key materials for OLED displays and for the promotion of OLED technology and education
Willem	den Boer	Fellow	2006		For his many contributions to active matrix designs for displays and sensors, especially his development of high aperture pixels
Jin	Jang	Fellow	2006		For his many outstanding contributions to active-matrix technologies for displays

Tsunehiko	Sugawara	Fellow	2006	For his many pioneering contributions to materials and glass technology for vacuum electronics displays, especially flat-face CRTs
Steven	Van Slyke	Fellow	2006	For his pioneering work and many contributions to the science and technology of organic light emitting diode displays
Ki-Woong	Whang	Fellow	2006	For his many contributions to the understanding of the discharge physics of AC plasma displays and for his leadership in the display community
Hideki	Asada	SPREC	2006	For his outstanding contributions to the research and development of low-power, high-integration system-on-glass LCDs and OLED displays
Ho-Kyoon	Chung	SPREC	2006	For his outstanding contributions to the development of active matrix organic light emitting diode display technology
Joseph	Jacobson	SPREC	2006	For pioneering contributions in the fields of electronic paper, printed displays and printed electronics
Yoshikazu	Kanazawa	SPREC	2006	For his leading contributions to the development of practical drive methods and circuits for full-color plasma displays.
Edward	Kelley	SPREC	2006	For his many contributions to the theory, methods and technology of display metrology, including the development of a standard for flat-panel display measurements
Jun	Souk	SPREC	2006	For outstanding contributions to TFT-LCD technology for TV applications
Hirofumi	Wakemoto	SPREC	2006	For his contributions to the development and commercialization of optically compensated bend (OCB) mode liquid crystal displays
Shigeo	Mikoshiha	JR	2007	For his outstanding contributions to research in the technology of plasma displays and backlights for liquid crystal displays, including clarification of the display motion artifacts and the enhancement of the light-emitting efficiency
Jeffrey	Folkins	JG	2007	For substantial contributions to electrophotography and his more recent innovations in solid-ink-jet printing
Andrew	Watson	OTTO	2007	For his many contributions to vision science and the computational modeling of the visual process, including applications to display and image quality metrics and image compression
William	Doane	Slottow	2007	For his outstanding contributions to education in the field of information displays as the Director of the Kent State Liquid Crystal Institute and as the major professor for numerous Masters and PhD students in the field of liquid crystal technology
Andras	Lakatos	LBW	2007	For his many years of outstanding service to the Society for Information Display as a member of the Executive Committee, President, and now Editor of the SID Journal

Michael	Hack	Fellow	2007		For his many contributions to the science and technology of flat panel displays including the simulation and modeling of thin film transistors and the development of liquid crystal and organic light emitting displays
Myung Hwan	Oh	Fellow	2007		For his contributions to white-light, inorganic, electroluminescent backlights for cell phones and his leadership in the advancement of the Korean display industry
Kenji	Okamoto	Fellow	2007		For his outstanding leadership and contributions to developing multi-domain, vertical-aligned liquid crystal displays for large-size, flat screen monitors and television displays
Kalluri	Sarma	Fellow	2007		For his many contributions to developing active-matrix liquid crystal display designs for avionic displays, including methods for wide viewing angle and operation in extreme environmental conditions
Yoshifumi	Shimodaira	Fellow	2007		For his many contributions to the understanding and improvement of picture quality in display systems and for his activities in support of the Society for Information Display.
Deng-Ke	Yang	Fellow	2007		For his significant scientific and technological contributions to bistable, reflective, cholesteric displays, and to polymer-stabilized cholesteric devices and for his outstanding contributions to education in the field of liquid crystal technology
In-Jae	Chung	SPREC	2007		For his outstanding contributions to the development of higher performance liquid crystal displays with larger apertures and larger display areas through the use of copper bus lines and for reducing display manufacturing costs by lowering the number of mask steps
Alex	Henzen	SPREC	2007		For his contributions to the development of electrophoretic displays and the integration of these displays into an innovative electronic book product
Kalil	Kalantar	SPREC	2007		For his outstanding contribution of introducing a novel optical design method for the light guides used in liquid crystal display backlights
Sang Soo	Kim	SPREC	2007		For his leadership in the development of super-patterned, vertically aligned (S-PVA) liquid crystal display technology with integrated amorphous silicon row drivers for liquid crystal display applications
Walter	Riess	SPREC	2007		Shared with Dr. Takatoshi Tsujimura: For their leading contributions to the design of top-emitting, large-area, active-matrix, organic light-emitting displays driven by amorphous silicon thin-film transistors
Takatoshi	Tsujimura	SPREC	2007		Shared with Dr. Walter Riess: For their leading contributions to the design of top-emitting, large-area, active-matrix, organic light-emitting displays driven by amorphous silicon thin-film transistors

John	Rupp	SPREC	2007	For his leadership and initiative over a multi-year period to develop the first avionic-grade, full-color, active matrix liquid crystal displays for commercial aircraft
Koichi	Sakita	SPREC	2007	For his outstanding contributions to the development of a design methodology for the electronic drive waveforms for three-electrode plasma displays through the use of the V_t closed curve method
Marko	Slusarczuk	SPREC	2007	For his leadership in creating and managing the DARPA high-definition display program, which advanced a wide range of display technologies, including active-matrix liquid crystal, plasma and projection displays, and also developing innovative equipment to commercially manufacture these displays
Richard	Williams	KFB	2008	For the pioneering discovery of a significant electro-optic effect in liquid-crystal materials and the recognition of its importance to flat-panel displays
Shin Tson	Wu	JR	2008	In recognition of his exceptional contributions to liquid-crystal-display science and technology, especially in display device physics, electro-optic effects, and materials
Louis	Silverstein	OTTO	2008	For his many contributions to the enhancement of display performance and image quality, including pioneering efforts in integrating display technology with color science
Tatsuo	Uchida	Slottow	2008	For his remarkable contributions to the education of students and company researchers in the field of liquid-crystal-displays
Vladimir	Chigrinov	Fellow	2008	For his many contributions to understanding the physics and electro-optic effects in liquid crystals, including photo-alignment and the modeling of liquid-crystal modes to enable the optimization of flat-panel-display applications
Ingrid	Heynderickx	Fellow	2008	For her significant contributions to the study and measurement of display image quality and for her outstanding educational efforts in training young scientists around the world
Chishio	Hosokawa	Fellow	2008	For his outstanding scientific contributions to the development and commercialization of organic-light-emitting-diode materials technology
Junji	Kido	Fellow	2008	For his many contributions to the science and technology of organic-light-emitting-diodes, including high-efficiency materials, white-light-emitting devices, and long-lifetime devices
Seung-Hee	Lee	Fellow	2008	For his invention, product development, and commercialization of fringe-field-switching (FFS) liquid-crystal-display devices
Richard	McCartney	Fellow	2008	For his many significant contributions to the application of active-matrix liquid-crystal-display technology to avionics, television, and mobile displays encompassing methods for viewing-angle control and LCD electronics

Kimio	Amemiya	SPREC	2008	For his outstanding contributions to the research and development of high-performance plasma displays using single-crystal MgO powder with its unique priming electron-emission effect
Alan	Jacobsen	SPREC	2008	For his outstanding contribution to human-centered design within the aviation industry, including the introduction of LCDs on commercial-airplane flight decks by developing safety-enhancing display formats and flight-deck prototyping systems
Sungkyoo	Lim	SPREC	2008	For his outstanding service to SID, including roles as Secretary General of Asia Display 1988, the International Display Manufacturing Conference, the International Conference on Display LEDs, and the Crystal Valley Conference and Exhibition
Hiroyuki	Mori	SPREC	2008	For his outstanding contributions to the improvement of optical simulation technology used to develop optical compensation films for LCDs
Kiyoshi	Yoneda	SPREC	2008	For his pioneering contributions to the commercialization of low-temperature poly-Si-based active-matrix organic light-emitting-diode displays
Peter	Raynes	JR	2009	For his pioneering work enabling the development of dislocation-free twisted-nematic LCDs, fast-responding and thermodynamically stable biphenyl mixtures, and dichroic supertwisted-nematic LCDs
Ernst	Lueder	Slottow	2009	For his many contributions as an outstanding and inspiring teacher, scientist, and mentor for the active-matrix-display community
Pete	Baron	LBW	2009	For his many years of innovative, tireless, and outstanding service to the Society from its inception in 1962, including his distinctive service to SID in numerous local and international positions
Amal	Ghosh	Fellow	2009	For his pioneering contributions to the technology of OLED microdisplays, including device architecture, thin-film encapsulation, and overall fabrication
Min-Koo	Han	Fellow	2009	For his many contributions to the design of TFT arrays for LCDs and compensation circuits for OLED displays employing both amorphous-silicon and poly-silicon TFTs
Sang Soo	Kim	Fellow	2009	For his many contributions to the field of LCDs, including advancements in the imaging performance of LCDs, and for the groundbreaking development of large-area AMLCDs.
Jun	Souk	Fellow	2009	For his many pioneering contributions to the technology of very large-area TFT-LCDs
Sashiro	Uemura	Fellow	2009	For his pioneering contributions to FED research through the development of new carbon-nanotube growth and activation technologies and for using carbon nanotubes to build experimental full-color FEDs

John	Zhong	Fellow	2009	For his many contributions to the application and commercialization of FPD technology, as well as the development of the technology, including the high-aperture TFT array structure and multi-touch displays
Byung Chul	Ahn	SPREC	2009	For his many contributions to the display industry by developing advanced technologies for innovative high-performance AMLCD products and applications
Peter	Bocko	SPREC	2009	For his central role in delivering innovative, high-performance glass substrates for the display industry, including environmentally friendly display glass and substrates compatible with poly-silicon backplanes for LCD and OLED displays
Hideo	Hosono	SPREC	2009	For his pioneering proposal to use amorphous In-Ga-ZnO as the semiconductor to make a transparent thin-film-transistor display backplane and for demonstrating a performance level that makes the material a candidate for the next generation of flat-panel displays
Gary	Jones	SPREC	2009	For his entrepreneurial leadership in the advancement of FED and OLED display technologies, including the development and commercialization of the world's first full-color active-matrix OLED displays
Hirotsugu	Kikuchi	SPREC	2009	For his leading contributions to the research and development of optically isotropic liquid-crystal materials for the blue-phase mode that exhibits fast electro-optical response and requires no surface treatment for device fabrication
Temkar	Ruckmongathan	SPREC	2009	For his pioneering contributions to display education in India and his research and development of matrix-addressing technologies with multi-line and wavelet-based techniques
Frederic	Kahn	KFB	2010	For outstanding innovative contributions to the development and commercialization of flat-panel LCDs and projection systems
Dwight	Berreman	JR	2010	For his many contributions to understanding electro-optic effects in liquid crystals and especially for his pioneering work on developing the 4 x 4 matrix method for simulating and optimizing the electro-optical properties of LCDs
Eli	Peli	OTTO	2010	For his many outstanding contributions to vision science and their application to image-quality evaluation and enhancement, including pioneering efforts in improving display performance for populations with special visual needs
Philip	Bos	Slottow	2010	For his pioneering educational efforts in the field of LCDs, including the development of curriculum and student research topics for the latest LCD-technology innovations for high-speed response, bistable operation, the design of wide-viewing-angle films, and diffractive devices

Makoto	Maeda	LBW	2010	For his exceptional and sustained service to the Society for Information Display, especially his outstanding leadership as Chapter Chairman, Director, and Regional Vice-President, all of which contributed significantly to the growth of the Japan Chapter
Wei	Chen	Fellow	2010	For his many contributions to the advancement of liquid-crystal displays, including the pioneering development and commercialization of high-performance LCD computer monitors, multi-touch displays, and computer displays with LED backlights
Edward	Kelley	Fellow	2010	For his outstanding leadership in the theory, methods, and technology of display metrology and his many contributions to international flat-panel-display standards
Haruhiko	Okumura	Fellow	2010	For his outstanding contribution to the research and development of TFT-LCD driving technologies, especially overdrive and low-power technologies, and for significant contributions to the advancement of the display community
Roger	Stewart	Fellow	2010	For his many contributions to display science and technology, including the first amorphous-silicon TFT-LCDs with integrated scanners ("SASID"), the first single-crystal silicon active-matrix EL displays, polysilicon AMLCDs, and compensation circuits for AMOLEDs, and for his creativity in TFT-LCD design
Andrew	Watson	Fellow	2010	For his outstanding contributions to both basic and applied vision science, including applications to image quality metrics, image compression, and psychophysically based display measurements
Kenji	Awamoto	SPREC	2010	For his outstanding contribution, along with M. Ishimoto and T. Shinoda, to the development and commercialization of super-large-area film-type display, utilizing technology that incorporates an array of plasma tubes
Manabu	Ishimoto	SPREC	2010	For his outstanding contribution, along with K. Awamoto and T. Shinoda, to the development and commercialization of super-large-area film-type display, utilizing technology that incorporates an array of plasma tubes
Tsutae	Shinoda	SPREC	2010	For his outstanding contribution, along with K. Awamoto and M. Ishimoto, to the development and commercialization of super-large-area film-type display, utilizing technology that incorporates an array of plasma tubes
Joyce	Farrell	SPREC	2010	For her outstanding contributions to the human factors of imaging systems and technology, including the development of the first successful quantitative metric for display flicker and for her exceptional service to the Society for Information Display
Hiroki	Hamada	SPREC	2010	For his outstanding contributions to the development of display devices including red laser diodes and polysilicon TFT-LCD light-valves for projectors

Michio	Kitamura	SPREC	2010	For leading technical and entrepreneurial contributions in putting simulation techniques to practical use as a standard tool for designing LCDs
James	Larimer	SPREC	2010	For his many contributions to vision science related to displays and image quality, including the development of display-performance algorithms
Ryuichi	Murai	SPREC	2010	For his leading contributions to the research and development of large-sized plasma displays, especially his commercialization of the 103-in.-diagonal PDP
Helge	Seetzen	SPREC	2010	For the technical and commercial development of high-dynamic-range displays and the pioneering of local-dimming display technology
Gregory	Ward	SPREC	2010	For the technical and commercial development of high-dynamic-range displays and the pioneering of local-dimming display technology
Lorne	Whitehead	SPREC	2010	For the technical and commercial development of high-dynamic-range displays and pioneering of local-dimming display technology
Rudolf	Eidenschink	KFB	2011	For his invention and development of low-birefringence, fast-responding, and highly stable phenyl-cyclohexane (PCH) and bi-cyclohexane (CCH) liquid-crystal families enabling the advancement of thin-film-transistor liquid-crystal displays (TFT-LCDs)
Hideo	Hosono	JR	2011	For his invention and development of high-performance transparent thin-film amorphous oxide semiconductors with large electron mobility, especially InGaZnOx, for use in active-matrix-addressed displays
Scott	Daly	OTTO	2011	For his many contributions to enhancement of image quality and display performance, including the development of image/video/display algorithms incorporating advanced models of the human visual system and methods for visualizing maps of visible image distortions
Shin-Tson	Wu	Slottow	2011	In recognition of his exceptional contributions to the education and training of graduate students and professionals in the field of flat-panel displays
Julie	Brown	Fellow	2011	For her many contributions to the OLED-display industry, including the pioneering development of high-efficiency phosphorescent OLEDs and for technical leadership in commercializing the technology
In Jae	Chung	Fellow	2011	For his contributions to advanced technology for the TFT-LCD flat-panel-display industry, including copper bus lines, low-mask-count TFT-array processes, and in-plane-switching (IPS) displays
Yoichi	Sato	Fellow	2011	For his major contributions to the development of advanced PDP technologies, including T-shaped electrodes, waffle ribs, the CLEAR driving method, high-Xe-content gas, and the crystal emissive layer (CEL)
Sung Tae	Shin	Fellow	2011	For his invention and development of high-transmittance vertical-alignment LCDs, invention of biaxial nematic LCDs, and development of blue-phase LCDs

Xiao Wei	Sun	Fellow	2011	For his many contributions to the science and technology of applying ZnO in flat-panel displays, organic light-emitting diodes, and liquid-crystal technologies
Hyun Chul	Choi	SPREC	2011	For his significant contributions to the commercialization of large in-plane-switching (IPS) panels for TVs and monitors, including the development of a high-performance 9.7-inch XGA IPS panel
Tieer	Gu	SPREC	2011	For his contributions to TFT-LCDs, particularly high-aperture-ratio panel design and processes, and for his successful start-up and management of an independent TFT-LCD company in China
Takahiro	Ishinabe	SPREC	2011	For his outstanding contributions to research on advanced LCD technologies, including single-polarizer reflective LCDs, in-plane-switching (IPS) LCDs, and fast-switching optically compensated bend (OCB) LCDs for field sequential displays
Kyeong Hyeon	Kim	SPREC	2011	For his development and commercialization of patterned vertical-alignment (PVA) and super-PVA (SPVA) LCDs
Oh-Kyong	Kwon	SPREC	2011	For his leading contributions to the research and development of driving methods and circuits for flat panel displays, including charge-sharing circuits, shared-column line driving, and compensation circuits for active-matrix OLED panels
Ravilisetty Padmanabha	Rao	SPREC	2011	For his leading contributions to research on and development of phosphors, related materials, and deposition processes for flat-panel displays and solid-state lighting
Jun	Someya	SPREC	2011	For his contributions to the development and promotion of moving-picture response time (MPRT) as a standard for the measurement of motion blur in TFT-LCDs
Jun	Souk	KFB	2012	For his pioneering work in the technology and product development of very-large-sized TFT-LCD TV panels
Tetsuo	Tsutsui	JR	2012	For his pioneering contributions to OLED research, especially the insightful application of the micro-cavity effect in OLED devices
Adi	Abileah	OTTO	2012	For his many outstanding contributions to the enhancement of the functional performance of displays, including contrast, brightness, viewing angle, gray-scale resolution, and stereoscopic imaging
Larry	Tannas	Slottow	2012	For his outstanding contributions to the education of students and engineers in the display field
Webster	Howard	LBW	2012	For his outstanding and sustained services to SID
Nikhil	Balram	Fellow	2012	For his pioneering contributions in the fields of video and image processing, integrating signal processing, visual perception, and semiconductor

					architectures
Brian	Berkeley	Fellow	2012		For his many contributions in the field of information displays, including advancements in TFT-LCD driving technology and display-systems architectures
Ho Kyoon	Chung	Fellow	2012		For his leading contributions to the development and commercialization of AMOLED displays
Oh-Kyong	Kwon	Fellow	2012		For his leading contributions to the research and development of LCDs, OLED displays, microdisplays, and system-on-panel technology
Hiap L.	Ong	Fellow	2012		For his many significant contributions to the science and technology of LCDs, especially wide-viewing-angle twisted-nematic and multi-domain vertical-alignment LCDs
Janglin	Chen	SPREC	2012		For his leading contributions to the development of hybrid plastic substrates for flexible displays and electronics and for the development of rewritable and reusable electronic paper
Hyang Yul	Kim	SPREC	2012		For contributions to the invention, product development, and commercialization of fringe-field-switching LCDs
Seok Lyul	Lee	SPREC	2012		For contributions to the invention, product development, and commercialization of fringe-field-switching LCDs
Seung-Hee	Lee	SPREC	2012		For contributions to the invention, product development, and commercialization of fringe-field-switching LCDs
Tapani	Levola	SPREC	2012		For his outstanding technical accomplishments in advancing the science of diffractive optics related to near-to-eye display systems
Shigeaki	Mizushima	SPREC	2012		For his leading contribution to the successful development of an 85-inch 8Kx4K-pixel TFT-LCD panel
Masayuki	Sugawara	SPREC	2012		For his outstanding contributions to the development of an ultra-high-definition LCD based on his leadership in UHD-TV system design
John	Wager	SPREC	2012		For his pioneering contributions to the development of oxide TFTs
